

FORMATION

Software engineering bachelor - Graduated	2026
École de technologie supérieure, Montreal, Québec	
University Degree in computer technology	2022
Université Claude Bernard Lyon 1, France	
Last session in Québec	2022
Cégep de Matane	

SKILLS

Object oriented language: Java, C#, C++
Data base: SQL, PL/SQL
Framework: WPF, OpenGL
Game Engine: Unreal Engine, Unity, Anvil
Versioning tools: Git, Perforce
Language: French (native language), English (C1), Lebanese (oral)

PROJECT

Portfolio section on my website

- Unity video games:
 - Panic On Comic City! - Ubisoft Game Lab Competition - Best Accessibility - <https://manoelnohra.itch.io/panic-on-comic-city>
 - Work and communicate with Artist and Game Designers
 - Uses of Mathematics and Physics to create the Gameplay
 - Work under small deadlines
 - The plague (Montreal GameJam, best sound design)
 - Communicate as a team
 - Working under pressure
 - Explaining our code
- Unreal Engine video games:
 - FPS
 - Learn a new technology
 - Document myself
 - Self-train
 - Tower Defense
 - Design my imagination (Gameplay, UI/UX, code structure)
 - Used IA to learn the engine and make technology choices
 - Create a solid base to allow easy gameplay extension
 - Create system to ease data implementation

PROFESSIONAL EXPERIENCES

Gameplay Programmer for NEO at Ubisoft Montréal (Intern)	(Seventeen weeks) 2025
Montréal, Québec, Canada	
■ Learn an in-house game engine (Anvil) ■ Bug debugging and solving ■ Create systems to ease implementation for designer ■ Add feature to the engine. ■ Test the game ■ Teamwork	

Software engineering at Audiokinetic (Intern)

(Sixteen weeks) 2024

Montréal, Québec, Canada

- Deepen my knowledge of Unreal Engine 5 and Unity
- Create a system dynamic audio environment easily adaptable for designer
- Work independently
- Conduct effective research
- Prepare presentations
- Find solutions to problems
- Create my ideas
- Explain technical terms

Tools programmer at Ubisoft Montréal (Intern)

(Sixteen weeks) 2024

Montréal, Québec, Canada

- Learn about a new framework and programming language (WPF and XAML)
- Teamwork
- Adapt to safety and code standards
- Find optimization solutions
- Solve complex problems

Programmer at CDRIN on the game project Urbia (Intern)

(Ten weeks) 2022

<https://dev.timmatane.ca/urbia>

Matane, Québec, Canada

- Evaluate and analyze customer needs
- Communicate with the client and his colleagues
- Adapt to a foreign code
- Bring your ideas to the project
- Find solutions to the problem
- Clearly explain technical points to the customer

SOCIAL IMPLICATIONS

Member of the Conjure club (Video game creation)

Since 2022

École de technologie supérieur, Québec

- Make games alone or with a team
- Organize events (Galla, GameJam)
- Participate in GameJams
- Volunteering

ACTIVITIES AND LEISURE

- Video Game - Rocket League (4700h - SSL), Persona, Hollow Knight:
 - Social spirit
 - Mix of cultures
 - Analyze the features and guess how the game works
 - Discover the artistic vision
- Volleyball (leisure and competitive):
 - Teamwork
 - Communicate adequately
- Japanese culture (*Japanimation*, language, culture):
 - Discovery of a foreign culture
 - Document myself
 - Broaden my knowledge
